1. While there is concurrent litigation related to this reissue application, action in this reissue application would NOT be stayed because of applicant's request that the application be examined at this time. Due to the related litigation status of this reissue application, EXTENSIONS OF TIME UNDER THE PROVISIONS OF 37 CFR 1.136(a) WILL NOT BE PERMITTED.

2. Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. Des. 448,441 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

3. Applicant's preliminary amendment requesting insertion of the priority claim under 35 U.S.C. 120 is acknowledged. However, applicant must indicate where on the front page of the patent the amendment should be inserted. In addition, the U.S. Patent Application Serial No. 09/798,502 was filed after the filing date of the application

that matured into patent D448,441 and is therefore not an earlier date for purposes of priority under 35 U.S.C. 120. Reference to this application must be omitted from the Cross Reference to Related Applications.

4. There is a drawing inconsistency in the issued patent. The center groove "a" shown in Fig. 3 is not shown in the Fig. 4. (Annotated print of the drawing is attached to this action.). Applicant must submit the change to the patent drawing as a sketch on a separate paper showing the proposed change in red ink for approval by the examiner. A new Fig. 4 view must be submitted with the word "Amended" after the figure number. Further, original Fig. 4 view must be enclosed in brackets with the word "Canceled" under the figure number. Upon approval of the drawing correction, applicant will be required to submit new drawings including amended Fig. 4 and a canceled original Fig. 4 drawing. See 37 CFR 1.173 and MPEP 1413.

5. The reissue oath/declaration filed with this application is defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

- a) It does not identify the citizenship of each inventor.
- b) It does not identify the mailing or post office address of each inventor. A mailing or post office address is an address at which an inventor customarily receives his or her mail and may be either a home or business address. The mailing or post office address should include the ZIP Code designation. The mailing or post office address may be provided in an application data sheet or a supplemental oath or declaration. See 37 CFR 1.63(c) and 37 CFR 1.76.

6. The claim is rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defect(s) in the declaration is set forth in the discussion above in this Office action.

7. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

The claim is rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defect is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

8. The original patent, or a statement as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.
